

Program

Monday

| | | | |
|-------|-------|------------------------------------|---|
| 9:00 | 9:05 | Opening | |
| | | chair: Grażyna Horbaczewska | |
| 9:05 | 9:50 | Lj. Kočinac | Certain variants of regular and rapid variations |
| 9:55 | 10:15 | S. Kowalczyk | On continuity in generalized topology |
| 10:20 | 10:50 | coffee break | |
| | | chair: Dimitrios Georgiou | |
| 10:50 | 11:10 | M. Turowska | Topologies generated by symmetric porosity on normed spaces |
| 11:15 | 11:35 | Z. Boros | Algebraically Baire regular families of functions in product spaces |
| 11:40 | 12:00 | R. Menzer | Algebraically measure regular families of functions in product spaces |

Tuesday

| | | | |
|---------|-------|-----------------------------------|--|
| | | chair: Ljubiša Kočinac | |
| 9:00 | 9:45 | G. Horbaczewska | Simple density and summable ideals on \mathbb{N} seen through densities on reals |
| 9:50 | 10:10 | S. Lindner | On permutations preserving density |
| 10:15 | 10:50 | coffee break | |
| | | chair: Stanisław Kowalczyk | |
| 10:50 | 11:10 | R. Wiertelak | On the concept of generalization of \mathcal{I} -density points |
| 11:15 | 11:35 | E. Holá | Quasicontinuity and the topology of uniform convergence on compacta |
| 11:40 | 12:00 | B. Novotný | Local and global properties of spaces of minimal usco maps |
| evening | | conference dinner | |

Wednesday

| | |
|---------------------------------------|--|
| Free Day – Trip to High Tatras | |
|---------------------------------------|--|

Thursday

| | | | |
|---------|-------|-----------------------------------|--|
| | | chair: Zoltán Boros | |
| 9:00 | 9:45 | D. Georgiou | A study on dimensions of continuous mappings |
| 9:50 | 10:10 | S. Bardyla | Bohr compactification of topological groups and Schur ultrafilters |
| 10:15 | 10:50 | coffee break | |
| | | chair: Małgorzata Turowska | |
| 10:50 | 11:10 | E. Przemska | The notion of Yao's neighborhoods from a topological point of view |
| 11:15 | 11:35 | A. Marton | A base modulo an ideal |
| 11:40 | 12:00 | P. Tóth | Measurable solutions of an alternative functional equation |
| evening | | grill | |

Friday

| | | | |
|-------|-------|---------------------------------|---|
| | | chair: Branislav Novotný | |
| 9:00 | 9:20 | M. Matejdes | Hyperconnectedness, Resolvability and Submaxibility of Ideal Topological Spaces and Soft Ideal Topological Spaces |
| 9:25 | 9:45 | F. Čapka | On argmin multifunction |
| 9:50 | 10:10 | coffee break | |
| | | chair: Renata Wiertelak | |
| 10:10 | 10:30 | P. Eliaš | On uniformly dense sets of functions |
| 10:35 | 10:55 | B. Novotný | Spaces of minimal usco and minimal cusco maps as Fréchet topological vector spaces |
| 10:55 | 11:00 | Closing | |
